

**IMMIGRATION****GOES Website Goes Away.....October 1  
Trusted Travelers Take Note**

by Kathleen Campbell Walker

Effective October 1, 2017, U.S. Customs and Border Protection (CBP) is replacing the [GOES](#) (global online enrollment system) website with the new cloud based Trusted Traveler Program (TTP) system website. Users of the various [Trusted Traveler Programs](#) (**Global Entry, Nexus, Sentri, Fast, APEC**) managed by CBP are all familiar with the [GOES](#) website. The GOES website is used for applications and the creation of accounts as well as receiving notifications from CBP and updating certain account information.

September 30 will be the last day users can access the GOES website information regarding their accounts. It is critical for users to save/print out their information in their GOES account including their PASSID membership number to recreate their account in the new TTP system.

**What do current TTP program participants need to do before September 30?**

1. Make sure your GOES profile information is correct. Log into your GOES account at: <https://goes-app.cbp.dhs.gov/> and print/save the information located in your profile. Make sure to record your PASSID number, which appears on the back of your TTP card or in the top left corner of your GOES homepage.
2. Create a Login.gov account, if you do not have one. Visit <https://login.gov/>. The GOES user ID/password will not work to log into the new TTP system website. You can also create this Login.gov account after September 30, 2017.

**The GOES website will be gone on October 1, 2017. So, what must TTP users do on or after October 1?**

1. After using login.gov to create an account for authentication, create a new account using the TTP system at <https://ttp.cbp.dhs.gov> (not yet activated).
2. For those who had started an application in GOES before October 1, the application will be cancelled unless it is *submitted* before October 1. If the application was not submitted in GOES before October 1, the data will be lost and a new application must be submitted using the TTP system.
3. To manage TTP accounts in the future, the place to go will be <https://ttp.cbp.dhs.gov> (not yet activated).
